The INTENSE Program is designed for a duration of two years. As students receive government and corporate grants during their period of study, they are obligated to work in Taiwan for a certain period after graduation, while participating companies have the right to priority in retaining and hiring students, thereby accelerating the supplementation of much needed mid-to-high-level talents. The industry-academia grants are provided by the National Development Fund of the Executive Yuan (hereinafter referred to as the National Development Fund), and include the following:

- Necessary administrative expenses for the first arrival in Taiwan and a one-way plane ticket.
- Up to 2 years of tuition and miscellaneous fees, with a maximum of NT\$50,000 per semester.

In addition, the following is provided by participating companies:

- A living allowance of at least NT\$10,000 per student per month.
- An internship allowance equal of above minimum wage during the internship period.

Students receiving the National Development Fund's industry-academia grants are obligated to work in Taiwan for a corresponding number of years based on the duration of the grant received. If a student drops out of the program midway or fails to fulfill the employment requirements after graduation, and the reason is attributable to the student, they must pay back the received industry-academia grants.

◎The above information about the INTENSE Program is part of the INTENSE Program Implementation Plan announced by the Ministry of Education on October 27<sup>th</sup>, 2025 (previously revised by the National Development Council on August, 2025). In the case of any amendments, announcements by the Ministry of Education shall take precedence.
